See what alumni and parents say about MSC

“There is absolutely no school that rivals MSC. The charming campus, the dedicated family of teachers— I leapt out of bed every day, eager to go to school. Eating carefully divided brownies during a lesson on fractions, initiating mock presidential debates on the playground as fifth graders, completing research projects in every grade...that kind of environment and encouragement of learning were incredible gifts given to my classmates and me during our time there.”

-Taylor Doggett, MSC Alumna

“As an MSC parent and a professional, I have a unique perspective in seeing students acquire a thirst for knowledge and a continued desire to grow. MSC provides an opportunity to foster curiosity and confidence in students from Primary through the Upper Elementary grades. As a parent, my investment in this program is now reflected in later years as our family prepares our former MSC student for secondary school.”

-Kelly Delage, former MSC parent

“The foundations of learning that the Montessori curriculum provided me have been instrumental in further education. From a very young age, Montessori has encouraged me to explore my interests and push myself to beyond typical classroom requirements. MSC has instilled an overall desire to learn more each and every day, as well as providing the groundwork for academic excellence in every subject area. I contribute many of the learning and studying strategies I use in University to those taught to me at MSC.”

-Elliot Chadwell, MSC Alumnus
